

✅ ***Outdoor Lavender Tree Care Checklist***

Outdoor lavender trees need a little extra care to thrive in the elements. Use this seasonal checklist to ensure your lavender stays strong, healthy, and ready to bloom in any season, no matter the weather.

Spring

- Prune out winter dieback
- Re-stake if needed
- Add lime to soil if acidic
- Confirm drainage is still solid

Summer

- Deep water weekly
- Deadhead for more blooms
- Watch for fungal issues
- Remove trunk sprouts

Fall

- Light prune to tidy up
- Stop fertilizing
- Mulch around root zone
- Prep container trees for winter move

Winter

- Protect with burlap if below 20°F
- Water sparingly
- Shelter container trees in garage or porch
- Don't prune
